

July 2011

Dear Security Bank Customer,

We're excited to inform you that the Security Bank locations in Whitesboro and Collinsville will soon be part of Landmark Bank. We are in the process of obtaining regulatory approval and beginning plans to move your loans and accounts to Landmark Bank. This process will take several months and we will keep you informed of our progress and more importantly when you can begin to conduct your business at Landmark Bank locations. In the mean time, it will be business as usual for all Security Bank customers of the Downtown Whitesboro and Collinsville locations.

Landmark Bank's history extends back more than 100 years to the first bank in Mountain View, MO. That first bank, in the small town of Mountain view, was the beginning of a companywide dedication to what some might call 'old fashioned' community banking, relationship building and stewardship to the communities served. Landmark bank has now extended its reach to serve customers through 37 locations in Texas, Oklahoma and Missouri, with a continued commitment to community relationship banking.

In the coming weeks, we'll be telling you more about the wide variety of products and services you will soon have access to at Landmark Bank including mobile banking, internet banking, free online bill pay and 11 convenient locations in Grayson and Cooke counties.

We're proud of the distinguished history Security Bank has and we're equally proud to have you become part of our Landmark Bank family. Watch for more updates about the transition to Landmark Bank that will be coming your way and don't hesitate to approach anyone at Security Bank with questions you may have.

Respectfully~

Jerry Warren, President, Landmark Bank - Whitesboro

Jimmie Tom McDonnell, President Emeritus, Security Bank

Pam Wright, Vice President, Cashier – Security Bank

Laura McCoy, Vice President, Branch Manager, Security Bank - Collinsville
